Guest speaker

Paul COSMOVICI

What are the IP challenges for companies operating in an international context?

An interactive 1,5 hours intervention on:

1. The intellectual property portfolio of a company;
2. What are the necessary steps to take a product from just an idea to launching it on the market?
3. How do I enter new markets through IP?
4. What favorable impact could IP have for PR, marketing and investor relations purposes, or as an attraction to potential acquirors?

Paul Cosmovici is the founder of Cosmovici Intellectual Property. He obtained an LL.M. at Columbia University and is a member of the Geneva, New York and Paris Bars, as well as a European Trademark and Design attorney, always striving for excellence in the intellectual property field. The consultancy that he provides for his clients and the strategies that he proposes, recommend him as that professional that you want to protect and develop your businesses. Paul's earlier experience in corporate and banking law, including court experience, before creating his own IP law firm, is an important additional element when it comes to solving the clients' problems. On the US, European and international level, the expertise of Paul Cosmovici is focused on IP strategy including trademarks, patents, copyrights, software, domain names.

Dragoş DOROS

Can the fiscal administration sustain economic development?

An interactive 1,5 hours intervention on:

1. How to simplify the taxpayer's interaction with NAFA.
2. How to speed up the fiscal administrative process.
3. How to maintain fiscal predictability despite the change of law.

Currently President of the Romanian National Fiscal Administration Agency, Mr **Dragoş Doros** has a realistic fiscal perspective formed in over 20 years of acquired experience in both the public and private sector from all levels: executive, management and public office. Mr Doros promotes dialogue with all fair taxpayers and intransigence against tax evasion.
