Career

Hristea Anca Maria is an Associate Professor Ph.D. at the Bucharest University of Economic Studies. She is a well-appreciated professor and researcher, and also author of treatises, specialized scientific articles, scientific works and research projects. In the academic sector, her main interests are: global diagnosis of organization, economic-financial analysis, business valuation, real estate investments analysis, entrepreneurship, business games or quality management. The professional activities in the scientific research go beyond the micro economy sphere by interfering with macroeconomics and world economy science: globalization and regionalization, economic and currency integration, international commerce, foreign investments, cross border crime, negotiating international conflicts, unemployment and poverty, sustainability etc. Both the academic and the research activity continue the practice, offering suggestions and economic advice to business people. She held collaborative training courses on strategic global diagnose under the UNCTAD programs related to the Romanian Chambers of Commerce and Industry. She makes herself known as single author by her two volumes treatise "Economic and financial analysis on the activity of an organization. From intuition to science", published in 2013. The work is widely appreciated both by her students, master students or doctoral candidates and by the practitioners. Hristea Anca Maria published reference articles on subjects as innovation and competitiveness, corporate social responsibility, sustainability and globalization, real estate investments. She is also scientific coordinator for degree and dissertation works. Hristea Anca Maria is a member of Romanian Society of Economic and Financial Analysis.
